MEMO

TO: Engineering & Operations Committee
FROM: Aaron Cook, Engineering Manager
DATE: June 18, 2024
SUBJECT: Award of Main Ave Sewer Main Replacement Project (Job 3196)

Description

Request for Board approval to award the Main Ave Sewer Main Replacement Project to the lowest responsive bidder.

Purpose

As part of the District’s capital improvement program, the District is improving the reliability of the sewer collections system through strategic replacement of aging infrastructure. Typically, sewer mains are relined in place as a more cost effective way to upgrade old collections pipes to like new condition. However, the section of pipe being addressed in this project requires full replacement because the existing line is shallow and flat, requiring regular attention from the collections maintenance crews. It also runs under the corner of an existing building. To correct this, the 75 year old pipe will be realigned and installed with standard slopes. District staff prepared the design package for the project and solicited for general contractor construction bids. The project consists of approximately 400 linear feet of 8-inch pvc and 4 manholes on Main Ave and Elder St. Bid opening was June 12, 2024. Three bids were received. A summary of the bid results is below:

Company Name	Bid Amount
GCI Construction	\$391,000
TK Construction	\$399,572
CHI Construction	\$434,000

GCI Construction, Inc. was the apparent lowest responsible bidder at \$391,000. GCI Construction, Inc. has not performed work for the District in the past, but has been in business for over 25 years with a long history of completed projects for utility agencies in southern California, primarily in Orange County.

Budgetary Impact

The work will be completed within the Board authorized total capital budget.

Recommended Action

That the Committee recommend to the Board award of the Main Ave Sewer Main Replacement Project to the lowest responsible bidder, GCI Construction, Inc. for \$391,000.
